PUBLIC NOTICE

NOTICE OF REQUEST FOR TEMPORARY AUTHORIZATION

Kilgore Flares Co., LLC
155 Kilgore Drive
Toone, TN 38381

Dear Mailing List Recipient:

In accordance with Rule 0400-12-.01-.07(9)(v)III Kilgore Flares Company (Kilgore), EPA ID Number TND 98 102 6594, submitted to the Tennessee Division of Solid Waste Management (DSWM) a request of issuance of a Temporary Authorization to conduct testing of the proposed treatment capacity limit at its Open Burn Unit (OBU) at 3,300 lbs. The current daily burn limit is 1,500 pounds. This Temporary Authorization is for a term of not more than 180 days.

Kilgore currently treats hazardous waste pyrotechnics at the OBU on Keller Road generated during the manufacturing process at Kilgore's main facility. Kilgore's main production facility is located at 155 Kilgore Drive, Toone, Tennessee 38381, and the address for the Open Burning Unit (OBU) is Keller Road, Toone, Tennessee, 38381.

Kilgore operates the OBU as an Interim Status facility under the standards established in Tennessee Hazardous Waste Management Regulations for an existing hazardous waste treatment facility. During the period of Temporary Authorization Kilgore will be conducting test burns and working closely with the DSWM to complete the processing of a finalized Hazardous Waste Treatment Permit which includes the increased weekly treatment capacity.

Further information on this matter can be obtained by contacting either Charles McDowell, Environmental Manager, Kilgore Flares Company [(731) 228-5240; cmcdowell@kilgoreflares.com] or Al Frakes of the DSWM [(615) 532-0855; Albert.Frakes@tn.gov].
